|-------------------|-----------------------------|
| Utility           | Full-Range Speaker System   |
| Configuration     | Dual 3" Neodymium Magnetic  |
| Nominal Impedance | 16 ohms                     |
| Rated Power RMS   | 80W                         |
| Sensitivity 1W/1M | 94 db                       |
| Applied Range     | 120 Hz to 20 KHz            |
| Coverage          | Ridiculously Wide and Tall  |
| Connectors        | NL-4                        |
| Net Weight        | 3.7 lbs                     |
| Finish Color      | Textured Black or Custom    |
| Grille Protection | 316L Stainless              |
| Warranty          | 60 Month Limited Commercial |
| Dimensions        | 9" W X 5" D X 5 1/4"H       |

#### WP WEATHER PROTECTED VERSION

- Constructed of Treated Exterior Composite wood panel, which is vermin, termite and mold resistant, without sounding like plastic or fiberglass.
- 316L Stainless Steel Grille for maximum corrosion resistance in the harshest environments.
- 1/4" acoustically transparent foam water stop layer.
- 100 micron 316L Stainless Steel Mesh for insect resistance in outdoor use within landscape environments.
- Weatherized component treatment for long term reliability.
- Watertight junction box for secure connections and vandal resistance on larger properties.
- All Stainless Steel Hardware for reliable, long term outdoor installation.
